Objective

The aim of this grant programme is to support doctoral projects in Germany.

Who can apply?

euros 861.- for graduates,
euros 1,200.- for doctoral candidates

If a language course scholarship is granted and the working language at the host institute is German, participation is compulsory. Due to the pandemic, German courses may take place online.
- Allowance for a personally chosen German language course during the grant period
- Reimbursement of the fees for the TestDaF or DSH test which has either been taken in the home country after receipt of the Scholarship Award Letter or in Germany before the end of the funding period

Selection

An independent selection committee consisting of specialist scientists reviews applications.

Central selection criteria are:

- a convincing and well-planned research or training project
- academic achievements

Furthermore, additional documents submitted that prove the applicant's professional aptitude or provide information about extracurricular commitment will also be included in the evaluation.

In addition, in order to ensure equal opportunities, the selection committee may take into account special life circumstances, about which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / Section E.

Research Grants - Bi-nationally Supervised Doctoral Degrees / Cotutelle • DAAD

Overview

Objective

This programme offers you the opportunity to do a bi-national doctoral degree at your home university and at a university in Germany. There are two possible options:

Option a) Doctorate with bi-national supervision:

Your doctoral project is supervised by a university teacher both at your home university and at the host institute in Germany (so-called "sandwich model"). Your project must be agreed with both supervisors according to the following procedure:

- You start your doctoral degree in your home country.
- This is followed by research trips to Germany.
- You complete your doctorate in your home country and are also supervised by the German academic adviser.
- Your home university awards the doctoral degree.

Option b) Doctorate following the "Cotutelle" procedure:

Funding is provided for doctoral projects that are carried out at the home university and at a university in Germany according to the so-called Cotutelle model. This is based on an individual cooperation agreement which is concluded individually for your doctoral project by the participating universities. After you have successfully completed your doctorate, the German university and your home university award the doctoral degree jointly.

Who can apply?

Depending on the nature of your project, you can apply for:

- a) bi-national supervision based on the "sandwich model". You can apply if you have earned a Master's degree or Diplom (or in exceptional cases a Bachelor's degree) at the latest at the start of the funding period.
- b) "Cotutelle model". You can apply if you have been admitted to a doctoral programme at the latest at the start of the funding period.

What can be funded?

- In option a), a doctorate with bi-national supervision based on the "sandwich model", research stays at a state or state-recognised institution of higher education or a non-university research institute in Germany (as part of a doctoral programme in the home country) are funded.
- In option b) a doctorate based on the "Cotutelle model", research stays at a state or state-recognised institution of higher education in Germany are funded. These allow doctoral students to complete a doctoral thesis which is supervised and carried out bi-nationally on the basis of an individually concluded cooperation agreement.

Duration of the funding

- Funding is provided for between 7 and a maximum of 24 months.
- Option a) Bi-national supervision following the "sandwich model": Grants are initially awarded for up to 12 months. Extensions depend on whether the selection committee considers the previous award period to have been successfully completed.
- Option b) Doctorate following the "Cotutelle" procedure: Grants are initially awarded for up to 18 months; there is the possibility for an extension of the scholarship for up to 6 months.

• The grant can be used flexibly for several shorter stays during your doctoral project.

- When you apply for the grant, you should outline in your study plan and time schedule how you intend to divide your time between Germany and your home university.
- If you plan to visit other countries (e.g. to collect material), please specify these plans in your application. Such visits can only be funded if they take place in connection with your visit to Germany. Another requirement is that they do not exceed one quarter of your expected total funding period.
- The length of the funding period is determined by a selection committee and depends on your project and study plan.

Value

- Monthly payments for doctoral candidates during the stay in Germany: 1,200 euros. Please note that no scholarship payments are made during stays at your home university.
- Payments towards health, accident and personal liability insurance cover
- Travel allowances [https://static.daad.de/media/daad_de/pdfs_nicht_barrierefrei/im-ausland-studieren-forschen-lehren/daad_reisekostenzuschuesse_stipendiaten.pdf] for up to three outward and return journeys unless these expenses are covered by the home country or another source.
- A research allowance
- Travel and accommodation expenses according to the German Federal Travel Expenses Law for your supervising university teachers for one trip of up to 10 days
 - to Germany to monitor progress
 - to your home university to take part in final examinations.
 Please indicate the trips in the work and time schedule (see "Application documents") when applying.

Under certain circumstances, grant holders completing an uninterrupted stay of over 6 months in Germany may receive the following additional benefits:

- monthly rent subsidy
- monthly allowance for accompanying members of family. Please also read our important information for scholarship applicants [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / section F, point 3.
- In the case of a disability or chronic illness: subsidy for additional costs which result from the disability or chronic illness and are not covered by other funding providers: Further information [<https://www.daad.de/en/the-daad/mobility-with-a-disability/>]

To enable grant holders to learn German in preparation for their stay in Germany, DAAD offers the following services:

- Payment of course fees for an online language course after receipt of the Scholarship Award Letter
- if necessary: Language course (2, 4 or 6 months) before the start of the research stay; the DAAD decides whether to fund the grant holder's participation and for how long depending on language skills and project. If a language course scholarship is granted and the working language at the host institute is German, participation is compulsory. Due to the pandemic, German courses may take place online.
- Allowance for a personally chosen German language course during the funding period
- Reimbursement of the fee for a TestDaF or DSH test, which you can take either in your home country after you have received your Letter of Award or in Germany during the funding period

Selection

An independent selection committee consisting of specialist scientists reviews applications.

The selection criteria are:

1. Qualification

- Academic achievements (grade point average, development of grades)
- Academic progress

- Knowledge of the language of instruction or working language
- If applicable, scholarly achievements after graduation, (e.g. publications, lectures, conference papers)

Study Scholarships - Postgraduate Studies in the Field of Architecture • DAAD

Overview

Objective

This scholarship programme offers you the opportunity to continue your education in Germany with a postgraduate or continuing course of study in the field of architecture. The scholarships also promote the exchange of experience and networking amongst colleagues.

Who can apply?

You can apply if you have gained a first university degree in the areas of Architecture, Interior Design, Monument Conservation, Urban Planning/Urban Development, Landscape Architecture, Landscape Planning at the latest by the time they commence their scholarship-supported study programme.

What can be funded?

In this study programme, you can complete

- a Master's degree/postgraduate degree leading to a final qualification
or
- a complementary course that does not lead to a final qualification (not an undergraduate course)

at a state or state-recognised German university of your choice.

If you are enrolled in a Master or postgraduate degree programme which includes a study period abroad, funding for this period abroad is usually only possible under the following conditions:

The study visit is essential for achievement of the scholarship objective, the visit does not take place in the home country, and it is no longer than a quarter of the scholarship period. Longer periods cannot be funded, even partially.

This programme only funds projects in the area of Design/Projects.

When selecting the desired degree programmes, please take care that they provide a minimum number of CP (credit points according to the European Credit Transfer System/ECTS) for the area of Design/Projects.

This means for degree programmes with

- 120 CP at least 45 CP
- 90 CP at least 34 CP
- 60 CP at least 23 CP.

DAAD scholarships cannot be used for participation in degree programmes which do not meet this requirement. Information on the quantitative distribution of CP can be found in the module overview of the degree programmes on the website of the respective university.

Other DAAD scholarship programmes are available for applicants from the field of History of Architecture or applicants with a scientific project.

Duration of the funding

Master's degree programme:

- Between 10 and 24 months depending on the length of your chosen study programme or project
- Start: usually from 1st October of the following year after the application, or earlier if a German language course is taken prior to the study programme

- The scholarships are awarded for the duration of the standard period of study for the chosen study programme (up to a maximum of 24 months). In the case of two-year programmes, your academic achievements in the first year of study are assessed. To receive further funding for the second year of study, your academic achievements thus far must indicate that you will successfully complete your programme within a reasonable period of time.

Complementary studies not leading to a final qualification

- one academic year
- Start: usually from 1st October of the following year after the application, or earlier if a German language course is taken prior to the study programme

Value

- A monthly payment of 861 euros
- Travel allowance [https://static.daad.de/media/daad_de/pdfs_nicht_barrierefrei/im-ausland-studieren-forschen-lehren/daad_reisekostenzuschuesse_stipendiaten.pdf]
- One-off study allowance
- Payments towards health, accident and personal liability insurance cover

Under certain circumstances, scholarship holders may receive the following additional benefits:

- Monthly rent subsidy
- Monthly allowance for accompanying members of family. Please also read our important information for scholarship applicants [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/1/> / section F, point 3.
- In the case of a disability or chronic illness: subsidy for additional costs which result from the disability or chronic illness and are not covered by other funding providers: Further information [<https://www.daad.de/en/the-daad/mobility-with-a-disability/>].

- Payment of course fees for an online language course after receipt of the Scholarship Award Letter
- if necessary: German language course (2, 4 or 6 months) before the start of the study visit in Germany; the DAAD decides whether to fund participation and for how long depending on German language skills and project. Participation in a German language course is compulsory if the language of instruction or working language is German at the German host institution. **Due to the pandemic, German courses may take place online.**
- Allowance for a personally chosen German language course during the scholarship period
- Reimbursement of the fee for a TestDaF or DSH test, which you can take either in your home country after you have received your Scholarship Award Letter or in Germany during your funding period.

Please note that the DAAD does not cover tuition fees.

Selection

After you have uploaded your application documents to the DAAD portal, the DAAD will first carry out a formal check. It will be checked whether the application requirements have been met and whether the application is complete. If this is the case, you will be asked to submit your work samples.

A special DAAD committee made up of professors from German universities makes the final decision about scholarships in the field of architecture. The decision is based upon written applications and work samples which have to be submitted (see: www.daad.de/extrainfo) [<http://www.daad.de/extrainfo>].

Selection criteria

- the artistic qualification and artistic maturity, measured by study achievements and work samples
- the quality of the project as measured by the study plan and the letter of motivation

In addition, the selection committee will give due consideration to aspects of equal opportunities, on which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) / Section E.

Further information

Admission to the University

Confirmation of a scholarship does not automatically guarantee admission to one of the host universities. The respective university decides whether or not to offer scholarship holders a place. In most cases, applicants are required to take an entrance examination. Please find out in time about admission requirements (see also the following information under "Language skills") and application deadlines and interview dates at your chosen university, and bear in mind that these may be several months before the planned start of your studies or even before the DAAD awards the scholarship. We cannot cover the costs of the entrance examination. If an applicant is offered a scholarship by the DAAD but fails to be admitted to any of the universities indicated in the application, he/she may not make use of the scholarship that has already been awarded.

Application requirements

What requirements must be met?

Please check if the following criteria are fulfilled:

- As a rule, your university degree should not date back more than 6 years at the time of the application deadline. Please read our [important information for scholarship applicants / Section A, point 2 \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/).
- Your application cannot be considered, if you have been resident in Germany for longer than 15 months at the application deadline.

Language skills

The language of instruction for study programmes in Germany is German. In international programmes, the language of instruction is English, or German and English.

To apply for a place at the university, you must submit proof of your language skills (e.g. DSH or TestDaF if the language of instruction is German; e.g. TOEFL or IELTS if the language of instruction is English). Ask your chosen host university about requirements well in advance. For more information about requirements, check out our [website \[https://www.daad.de/en/study-and-research-in-germany/plan-your-studies/the-german-language/\]](https://www.daad.de/en/study-and-research-in-germany/plan-your-studies/the-german-language/).

Applicants in the field of architecture for English-language degree programmes must already provide proof of language skills that meet the requirements of their chosen universities with their scholarship application. Please list the language level required by the universities of your choice in the form "Information on the desired degree programmes".

To apply for admission to a German-language architecture degree programme, the universities generally expect very good German language skills (at least B2, usually C1). For German-language degree programmes, proof of German language skills according to the European Framework of Reference or Test-DaF at the level of a completed B1 must therefore be submitted. Applicants are also expected to acquire the level required by the universities on their own initiative.

Support offer German language skills

If it is possible, you can also make use of the DAAD support offers listed under "Value" to improve your language skills.

Application Procedure

Study Scholarships - Postgraduate Studies in the Field of Music • DAAD

Overview

Objective

This scholarship programme offers you the opportunity to continue your education in Germany with a postgraduate or continuing course of study in the field of music. The scholarships also promote the exchange of experience and networking amongst colleagues.

Who can apply?

You can apply if you have gained a first university degree in the field of Music at the latest by the time you commence your scholarship-supported study programme; if this is not possible, you should have at least exhausted all the training options available for your instrument in your country of origin.

What can be funded?

In this study programme, you can complete

- a Master's degree/postgraduate degree leading to a final qualification, or
- a complementary course that does not lead to a final qualification (not an undergraduate course)

at a state German college of music of your choice.

The funding of postgraduate studies is possible in the so-called 2nd cycle (usually a four-semester Master's degree) or a 3rd cycle which usually takes place in two semesters (concert examination, masterclass or PhD in an artistic subject).

If you are enrolled in a Master or postgraduate degree programme which includes a study period abroad, funding for this period abroad is usually only possible under the following conditions:

The study visit is essential for achievement of the scholarship objective, the visit does not take place in the home country, and it is no longer than a quarter of the scholarship period. Longer periods cannot be funded, even partially.

Please note: This programme only funds projects in the artistic field. Other DAAD scholarship programmes are available for applicants from the field of musicology or music education or musicians with a scientific project.

Duration of the funding

Degree programme:

- Funding is provided for Master's studies, preparation for the concert exam and participation in master classes.
- Start: usually from 1st October of the following year, or earlier if a German language course is taken prior to the study programme
- The scholarships are awarded for the duration of the level of training for the chosen study programme (between 10 and 24 months). In the case of two-year programmes, your academic achievements in the first year of study are assessed. To receive further funding for the second year of study, your academic achievements thus far must indicate that you will successfully complete your programme within a reasonable period of time.
- An extension of the scholarship beyond the maximum duration of 24 months is only possible if changing to a new stage in studies is intended (usually from a Master's degree to an advanced programme of study such as a concert exam or master class). For particularly qualified candidates, it is possible to apply for an extension for a concert exam for up to 24 months.

Complementary studies not leading to a final qualification:

- One academic year is being funded. In individual cases, the scholarship can be extended on request
- Start: usually on 1st October of the following year, or earlier if a German language course is taken prior to the study programme

Value

- A monthly payment of 861 euros
- Travel allowance [https://static.daad.de/media/daad_de/pdfs_nicht_barrierefrei/im-ausland-studieren-forschen-lehren/daad_reisekostenzuschuesse_stipendiaten.pdf]
- One-off study allowance
- Payments towards health, accident and personal liability insurance cover

Under certain circumstances, scholarship holders may receive the following additional benefits:

- Monthly rent subsidy
- Monthly allowance for accompanying members of family. Please also read our [important information for scholarship applicants](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / section F, point 3
- In the case of a disability or chronic illness: subsidy for additional costs which result from the disability or chronic illness and are not covered by other funding providers: [Further information](https://www.daad.de/en/the-daad/mobility-with-a-disability/) [<https://www.daad.de/en/the-daad/mobility-with-a-disability/>]

To allow you to improve your language skills in preparation for your stay in Germany, the DAAD offers the following benefits:

- Payment of course fees for an online language course after receipt of the Scholarship Award Letter
- if necessary: German language course (2, 4 or 6 months) before the start of the study visit in Germany; the DAAD decides whether to fund participation and for how long depending on German language skills and project. Participation in a German language course is compulsory if the language of instruction or working language at the German host institution is German. Due to the pandemic, German courses may take place online.
- Allowance for a personally chosen German language course during the scholarship period
- Reimbursement of the fee for a TestDaF or DSH test, which you can take either in your home country after you have received your Letter of Award or in Germany during your funding period.

Please note that the DAAD does not cover tuition fees.

Selection

A special DAAD committee made up of professors from German colleges of music makes the final decision about scholarships in the field of music. The decision is based upon written applications and sound recordings which have to be submitted (see: www.daad.de/extrainfo [<http://www.daad.de/extrainfo>]).

Selection criteria

- the artistic qualification and artistic maturity, measured by study achievements and work samples
- the quality of the project as measured by the study plan and the letter of motivation; the quality of the project includes the following aspects: the justification of the application, the plausibility and feasibility of the project, the state of preparation of the stay abroad, the embedding of the stay in the artistic career as well as the connection with professional perspectives

In addition, the selection committee will give due consideration to aspects of equal opportunities, on which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / Section E.

Further information

Confirmation of a scholarship does not automatically guarantee admission to one of the colleges of music named in the application. The respective college of music decides whether or not to offer scholarship holders a place. In most cases, applicants are required to take an

entrance examination. Please find out in time about admission requirements and application deadlines and interview dates at your chosen college of music, and bear in mind that these may be several months before the planned start of your studies or even before the DAAD awards the scholarship. We cannot cover the costs of the entrance examination. If an applicant is offered a scholarship by the DAAD but fails to be admitted to a university, he/she may not make use of the scholarship that has already been awarded.

Application requirements

What requirements must be met?

Please check if the following criteria are fulfilled:

- As a rule, your university degree should not date back more than 6 years at the time of the application deadline. Please read our [important information for scholarship applicants / Section A, point 2](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>].
- The respective college of music is responsible for deciding age limits for admission, whereby differing rules may be applied depending on the applicant's academic level and chosen subject.
- Your application cannot be considered, if you have been resident in Germany for longer than 15 months at the application deadline.

Language skills

Applicants in the field of music should have a knowledge of the language of instruction that corresponds to the requirements of the chosen university at the latest by the time they start their scholarship. If you do not yet have the language skills required by the university at the time of your application, your application should indicate the extent to which you are in a position to reach the required level. After you have been awarded a scholarship, take advantage of the funding opportunities described under "Value".

Please find out in time about admission requirements and application deadlines and interview dates at your chosen university, and bear in mind that these may be several months before the planned start of your studies or even before the DAAD awards the scholarship. Study Scholarships - Postgraduate Studies in the Field of the Performing Arts • DAAD

Overview

Objective

This scholarship programme offers you the opportunity to continue your education in Germany with a postgraduate or continuing course of study. The scholarships also promote the exchange of experience and networking amongst colleagues.

Who can apply?

You can apply if you have gained a first university degree in the field of the Performing Arts at the latest by the time you commence your scholarship-supported study programme.

What can be funded?

In this study programme, you can complete

- a Master's degree/postgraduate degree leading to a final qualification, or
- a complementary course that does not lead to a final qualification (not an undergraduate course)

at a state or state-recognised German university of your choice.

If you are enrolled in a Master or postgraduate degree programme which includes a study period abroad, funding for this period abroad is usually only possible under the following conditions:

The study visit is essential for achievement of the scholarship objective, the visit does not take place in the home country, and it is no longer than a quarter of the scholarship period. Longer periods cannot be funded, even partially.

Please note:

This programme only funds projects in the artistic field of the Performing Arts (Drama, Theatre Directing/Theatre Dramaturgy, Musicals, Performance Studies, Dance, Choreography). Other DAAD scholarship programmes are available for applicants from the fields of Theatre and Dance Studies or for artists with a scientific project.

Duration of the funding

Postgraduate study programmes leading to a final qualification:

- Between 10 and 24 months depending on the length of the chosen study programme or project
- Start: usually from 1st October of the following year, or earlier if a German language course is taken prior to the study programme
- The scholarships are awarded for the duration of the standard period of study for the chosen study programme (up to a maximum of 24 months). In the case of 2-year courses, further funding is provided after the first year of study, if your academic achievements thus far indicate that you will successfully complete the study programme within a reasonable period of time.

Complementary studies not leading to a final qualification:

- One academic year
- Start: usually from 1st October of the following year, or earlier if a German language course is taken prior to the study programme

Value

- A monthly payment of 861 euros
- Travel allowance [https://static.daad.de/media/daad_de/pdfs_nicht_barrierefrei/im-ausland-studieren-forschen-

- One-off study allowance
- Payments towards health, accident and personal liability insurance cover

Under certain circumstances, scholarship holders may receive the following additional benefits:

- Monthly rent subsidy
- Monthly allowance for accompanying members of family. Please also read our [important information for scholarship applicants](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / section F, point 3.
- In the case of a disability or chronic illness: subsidy for additional costs which result from the disability or chronic illness and are not covered by other funding providers: [Further information](https://www.daad.de/en/the-daad/mobility-with-a-disability/). [<https://www.daad.de/en/the-daad/mobility-with-a-disability/>]

To enable scholarship holders to learn German in preparation for their stay in the country, DAAD offers the following services:

- Payment of course fees for an online language course after receipt of the Scholarship Award Letter
- if necessary: German language course (2, 4 or 6 months) before the start of the study visit in Germany; the DAAD decides whether to fund participation and for how long depending on German language skills and project. Participation in a German language course is compulsory if the language of instruction or working language is German at the German host institution. Due to the pandemic, German courses may take place online.
- Allowance for a personally chosen German language course during the scholarship period
- Reimbursement of the fee for a TestDaF or DSH test, which you can take either in your home country after you have received your Letter of Award or in Germany during your funding period.

Please note that the DAAD does not cover tuition fees.

Selection

After you have uploaded your application documents to the DAAD portal, the DAAD will first carry out a formal check. It will be checked whether the application requirements have been met and whether the application is complete. If this is the case, you will be asked to submit your work samples.

A special DAAD committee made up of professors from German universities makes the final decision about scholarships in the field of the Performing Arts. The decision is based upon written applications and work samples which have to be submitted (see: www.daad.de/extrainfo [<https://www.daad.de/en/study-and-research-in-germany/scholarships/scholarship-database/subject-specific-information/>]).

Selection criteria

- the artistic qualification and artistic maturity, measured by study achievements and work samples
- the quality of the project as measured by the study plan and the letter of motivation

In addition, the selection committee will give due consideration to aspects of equal opportunities, on which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/) [<https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/>] / Section E.

Further information

Confirmation of a scholarship does not automatically guarantee admission to one of the universities. The respective university decides whether or not to offer scholarship holders a place. In most cases, applicants are required to take an entrance examination. Please find out in time about admission requirements and application deadlines and interview dates at your chosen university, and bear in mind that these may be several months before the planned start of your studies or even before the DAAD awards the scholarship. We cannot cover the costs of the entrance examination. If an applicant is offered a scholarship by the DAAD but fails to be admitted to a university, he/she may not make use of the scholarship that has already been awarded.
